

SICSR Infrastructure

The infrastructure is improved from time to time based on ever changing needs due to technological developments and curriculum changes.

SICSR has adequate infrastructure consisting of classrooms, Labs, A.V. Halls, library, reading room, reference room and conference room, separate washrooms for men, women and canteen. And other infrastructure facilities like sports, auditorium, hostel, etc. are available at different campuses. Transport facility to other campuses is also available.

SICSR can accommodate up to 900 students every year. We have adequate number of classrooms, computer labs and library to accommodate them.

SICSR in collaboration with independent bodies utilizes its infrastructure to conduct various workshops, meets & events. E.g. PLUG, Null, bar camp, cloud, java, tedx etc. as a CSR (Corporate Social Responsibility) to the open source community.

Hardware and the software is continuously upgraded and updated to meet the curriculum requirements. Entire SICSR campus is Wi-Fi enabled for students and staff.

IT Resources

Introduction

SICSR is a pioneer and technology evangelist in the field of open source. We Offers virtual servers with Open source technology for students. SICSR has innovatively procured an exceptional Apple lab for students. .It is well supported by the our IT Team

IT Infrastructure

- **Network Infrastructure-** SICSR has an exclusive Network lab for the students having specialization in System/ Network administration, where the students can work hands on and practice on latest gadgets and hardware equipment. SICSR campus is Wi-Fi campus, connected by Wi-Fi intranet, including- the academic block and a significant part of open space.
- **SDRC (Software Development Research Center)** – It's a nucleus and serves as a grooming ground for students who are vying to create a place as a software developer.
- **E-Learning System** – SICSR having online open learning system portal & Online Education Center for students & Faculty.
