Thanks for your email Dr. Schaal.

I am given to understand that you will be with SICSR for 3 days.

I do not wish to bother you too much with 'not done before' type of topics. Also, I wish to keep it neither too sparse nor too tight.

Hence, how about the following schedule as per your suggested list:

Each day we can have two sessions: approx. an hour before lunch, and one after lunch.

Day-1:

- Predictive Analytics (Next Basket Value, Churn+Conv Probabilities, Customer Lifetime Value) from the Shelf (industrial use case)

Day-2:

- Recommendations and Marketing Automation (industrial use case)

- Based upon the latter: Towards perfect market transparency (proposition for discussion)

Day-3:

- Multi-National Topics Maps for Parliamentary Debate Analysis (recent publication)

- Based upon the latter: AI-powered Transparency (proposition for discussion)

Does it sound comfortable to you? Please feel free to let me know if you have something else in your mind, please.

Pls. excuse brevity of message.

Regards,

Prof. Dr. Jatinderkumar R. Saini,
Professor & Director,
Symbiosis Institute of Computer Studies and Research (SICSR), Pune.
